

KENYA & TANZANIA FAMILY SAFARI

with Zanzibar

16 days

Created on: 18 Apr, 2024

Day 1 Arrive in Nairobi

Today we arrive in Nairobi, the capital of Kenya.

Part of Maasai land when the British arrived, this modern capital grew with the development of the railway. Derived from a Maasai word meaning "Cold Water," Nairobi is a pleasant mix of colonial British with modern and traditional African influences.

Overnight in Nairobi.

Included Meal(s): Dinner, if required.

Day 2 Nairobi - Great Rift Valley - Lake Nakuru National Park

After breakfast we travel to Lake Nakuru, a shallow soda lake in the Rift Valley.

The Rift Valley was created millions of years ago, under the strain of enormous volcanic eruptions which resulted in a giant split in the earth's surface from Syria to Mozambique. Lava flowed into the valley, forming escarpments on either side of the gigantic trough, which can be up to 80 km (50 miles) wide, big enough to be visible from outer space. At the lake, depending on the water levels, we may have the opportunity to see up to two million flamingos, in addition to the over 340 species of birds that have been recorded in the Rift Valley! Lake Nakuru is very shallow and can fluctuate up to five metres (12 feet) each day. When the water is low you can see a white band of crystallized soda along the shoreline. This is also one of the best places in Kenya to view the rare White Rhino as we explore the park on our afternoon game drive.

Included Meal(s): Breakfast, Lunch and Dinner

Day 3 Lake Nakuru - Maasai Mara National Reserve

Early this morning we depart from Lake Nakuru National Park and continue our journey through the Rift Valley, passing by Lake Naivasha and nearby Mount Longonot, a relatively young volcanic reminder of the Rift's violent past. We arrive at our lodge (via bad road) in the Maasai Mara National Reserve in time for lunch.

The Maasai Mara is a natural extension of the Serengeti eco-system and has an amazing concentration of wildlife. The largest population of lions in Kenya is found here, along with large herds of plains game. The Maasai Mara may also be the best place in Kenya to view cheetah. Later this afternoon we enjoy another game drive.

Overnight in the Maasai Mara.

Included Meal(s): Breakfast, Lunch and Dinner

Day 4 Maasai Mara National Reserve

The Maasai Mara National Reserve consists of rolling grassland and is located at the northern end of the Serengeti Plain. Considered the best of Kenya's parks, it is on the pathway of the yearly wildebeest migration, which comes north from Tanzania about the end of June and returns to Tanzania around the end of September. "The Mara" sustains all of the "Big Five" -- lion, elephant, leopard, rhinoceros and buffalo -- as well as an astonishing wealth of herding animals and other wildlife. You can see the stately Maasai men and youth along the road tending their cattle and goats.

In the Mara you will have an optional opportunity to ascend over the northern Serengeti at daybreak in a hot air balloon (optional expense). From over 300 m (984 feet) above, you will be able to view the vast land and the myriad animals that inhabit the Maasai Mara. During our stay in the Mara we enjoy a full day game drive in Africa's most famous game park.

Day 5 Maasai Mara - Giraffe Manor - Nairobi

After breakfast, we depart for Nairobi. En route, just outside the capital, we visit Giraffe Manor. In 1974 Jock Leslie-Melville, grandson of a Scottish earl, and his wife Betty, who also founded the African Fund for Endangered Wildlife (AFEW), bought the manor. They then moved five babies of the highly endangered Rothschild giraffe to their property where they have been successfully reared and they now have their own babies. Visitors can feed and photograph the giraffes and warthogs at the manor, and also wander through the adjoining primeval forest to view bushbuck, dik dik, and more than 180 species of bird.

Overnight in Nairobi.

Included Meal(s): Breakfast and Dinner

Day 6 Nairobi - Amboseli National Park

Today we travel south from Nairobi to the Amboseli National Park.

Just across the border from Tanzania, this park is situated on the African plain at the foot of snow-capped Mount Kilimanjaro, the continent's tallest mountain at 5894 m (19,300 feet). Here the cone-shaped mountain seems to hover majestically over the shimmering African plains.

The Amboseli National Park is also famous for its large herds of elephants. Here they cover themselves in red dust, giving them an even more imposing appearance. On this afternoon's game drive we hope to view animals grazing on the open plain with Mt Kilimanjaro providing the classic backdrop (weather-permitting).

Included Meal(s): Breakfast, Lunch and Dinner

Day 7 Amboseli, Kenya - Ngorongoro Highlands, Tanzania

This morning we depart Amboseli, retracing yesterday's route a bit before crossing into Tanzania. Further on we pass through Arusha, the starting point for the northern safari routes of Tanzania and one of the country's most attractive towns. The surrounding area is primarily a highland forest park and a good place to see black and white colobus monkeys and bushbuck.

We continue to the Maasai Plains via the town of Mto wa Mbu ("Mosquito Junction") near Lake Manyara, another Rift Valley lake renowned for its unique rainforest micro climate. Our destination is E Unoto Lodge, luxury safari accommodation in a Maasai-inspired environment. E Unoto Retreat resembles an authentic Tanzanian Maasai village and has been designed to blend with the natural surroundings. The lodge was also constructed incorporating traditional Maasai methods and with environmental awareness. The handcrafted and imported furnishings and fittings compliment the lodge's theme and provide guests with an exotic Tanzanian flavour.

On arrival, after lunch, guests can visit a nearby Maasai boma, or village, meet the locals and learn about the Maasai culture and way of life. The Maasai are a nomadic people of the plains who are in constant search for adequate grazing ground for their large herds of cattle and other livestock. When two Maasai meet, the first greeting they exchange is Keserian ingra? Keserian ingishu? (How are your wife and children? How are your cattle?). To have one without the other is to be poor. To have both is to be rich! Other activities include cycling or hiking to an attractive nearby waterfall. The lodge also has a great pool.

Day 8 Ngorongoro Highlands - Olduvai Gorge - Serengeti National Park

This morning we depart E Unoto and transit the Ngorongoro Conservation en route to the Serengeti. We make a stop at Olduvai Gorge, site of the Leakey excavations in the 1960s and 1970s that established this region as the prehistoric habitat of some of the earliest species of hominids, with some finds dating back 1.8 million years. Pundits in the life sciences have argued that the Olduvai contribution to the story of human origins remains unsurpassed by any other prehistoric site in the world. A small museum on site outlines the unique geological and human history of the area.

We continue across the seemingly endless plains. Indeed the name "Serengeti" derives from a Maasai word meaning "Land-without-end." This is a land of superlatives, both in the vast landscape that surrounds you and the incredible biodiversity it supports. It is here that you have a chance to witness one of the most compelling natural dramas on earth--the annual migration, a sight unparalleled anywhere in the natural world. Our afternoon game drive provides an excellent introduction to this fantastic landscape and the biodiversity it supports.

Overnight in the Serengeti National Park.

Included Meal(s): Breakfast, Lunch and Dinner

Day 9 Serengeti National Park

Today we have a full day of game viewing on the Serengeti. We will visit the "kopjes," a series of low, incongruous hills dotting the open landscape that often provide a vantage point for hungry predators contemplating the endless stream of hoofed animals parading past them. During this time, up to 1.5 million wildebeest and a half a million zebra embark on a single-minded and perilous quest for water and grazing land. Following this spectacle, of course, are the meat-eating opportunists, hoping to capitalize on the physical toll this journey exacts on the desperate grazers.

Included Meal(s): Breakfast, Lunch and Dinner

Day 10 Serengeti - Ngorongoro Conservation Area

After an early breakfast we retrace our route to the Ngorongoro Crater, a UNESCO World Heritage Site. We take in the hypnotic view from the crater rim before descending to the crater floor to experience one of the world's most amazing places. If the Garden of Eden did indeed exist, then this is it!

The crater is the world's largest unbroken volcanic caldera, 610m deep with a floor of 260 sq km. The steep sides of the crater mean that it has become a natural enclosure for a very wide variety of wildlife, including most of the species found in East Africa. Aside from herds of zebra, gazelle and wildebeest, the crater is home to the "big five": rhinoceros, lion, leopard, elephant and buffalo. The crater plays host to almost every individual species of wildlife in East Africa, and there are an estimated 25,000 animals within the crater. Lake Magadi in the centre of the crater is, like many in the Rift Valley, a soda lake supporting flocks of flamingo.

After our game drive we ascend the crater to our lodge, spectacularly located on the rim.

Today we travel back to Arusha via Gibb's Farm and a leisurely lunch. Founded during German colonial times and still privately owned, Gibb's Farm is now a small hotel perched on the outer slopes of the Ngorongoro Highlands, surrounded by coffee plantations with long views over lush and beautiful agricultural country.

We arrive in Arusha in time to enjoy the lush grounds of our hotel before dinner.

Day 12 Arusha - Zanzibar: Town Tour

This morning we fly to Zanzibar and transfer to our hotel in Stone Town.

Zanzibar is an archipelago made up of Zanzibar and Pemba Islands, and several islets. Zanzibar Island is 96 km (60 miles) long and 32 km (20 miles) wide, occupying a total area of approximately 1040 km sq (650 sq miles). It is characterised by beautiful sandy beaches with fringing coral reefs, and the magic of historic Stone Town -- said to be the only functioning ancient town in East Africa.

Zanzibar's local people are an incredible mixture of ethnic backgrounds, indicative of her colourful history. Islam is the dominant religion, and practiced by most Zanzibaris, although there are also followers of Christianity and Hinduism. Population is estimated at 800,000, with the largest concentration being Zanzibar City, which has approximately 100,000 inhabitants. Zanzibaris speak Swahili (known locally as Kiswahili), a language spoken extensively in East Africa. Many believe that the purest form is spoken in Zanzibar as it is the birthplace of the language.

This afternoon we have a walking tour of Stone Town, the old city and cultural heart of Zanzibar, little changed in the last 200 years. It is a place of winding alleys, bustling bazaars, mosques and grand Arab houses whose original owners vied with each other over the extravagance of their dwellings. This one-upmanship is particularly reflected in the brass-studded, carved, wooden doors -- there are more than 500 different examples of this handiwork. Our tour takes us to the House of Wonders, the Palace Museum (People's Palace), the old slave market, the Arab Fort, and the Hamamni Persian Baths. Stone Town has some excellent gifts shops with plenty of souvenirs and handicrafts to choose from.

NOTE: The exact order of our Zanzibar sightseeing may vary depending on variables such as weather and other logistical considerations. Our Christmas date may also be adjusted in order to adhere to hotel minimum night requirements over the holiday period. If this is the case, we may reduce Zanzibar Town nights to one, and then spend the remainder of our time at the beach hotel. Actual sightseeing content will remain the same.

Day 13 Jozani Forest & Stone Town

This morning we visit the Jozani Natural Forest Reserve located in the central east region of Zanzibar Island, home to the rare red colobus monkey, endemic to Zanzibar. These monkeys are full of character and roam freely. They can also be seen at very close quarters just outside the reserve's perimeter and are incredibly photogenic. Jozani is home to other species including Syke's monkeys, small buck and bushpigs.

This afternoon is free to enjoy Stone Town. Most of the houses that can be seen today were built in the 19th Century when Zanzibar was one of the most important trading centres in the Indian Ocean region. The coralline rock of Zanzibar was a good building material, but it is also easily eroded. This is evident by the large number of houses that are in a bad state of repair. Several buildings have already been renovated and the Stone Town Conservation Authority has been established to coordinate the restoration of the town to its original magnificence.

Day 14 Spice Tour - East Coast

Today we check-out of our town-based hotel and travel to the island's east coast.*

En route we enjoy some touring along the way. The history of Zanzibar would be incomplete without a 'spice tour' -- cloves, nutmeg, cinnamon, pepper and many other spices were as important to the Sultans of Oman as the infamous slave trade. They can be seen in the plantations just outside Zanzibar town, and our morning tour includes opportunities to dazzle the senses with fresh spices. A detailed description is given about a variety of spices and their uses in cooking and cosmetics. It is fascinating the sheer number of spices produced and their incredible value for many ailments and culinary applications.

We then travel to our resort-style hotel located on a beach outside of Stone Town.

* PLEASE NOTE that local government on Zanzibar has levied a tax of US\$1.00 per person for every night spent on the island. This amount is payable, in cash, directly to each hotel upon check-out. We regret that we are unable to pay this in advance on your behalf.
