Little Moldova has a landscape covered with vineyards, pristine forests and lakes, medieval monasteries and fortresses, wine caves, a rich history, and eight ethnic nationalities. A chronicler once called Moldova "a country in the way of all disasters." Indeed the territory of Moldova is located on the boundary of Eastern and Western Europe and has been populated from ancient times.

* We have found (especially since the pandemic) that the dubious quality of accommodation suitable for international groups outside of the capital preclude over-nighting at any of the locations below, at least until the situation improves.

IF YOU'RE WONDERING why we don't include Transnistria in our program, the situation with regard to security and tensions with Moldova and Russia are so changeable that it is difficult for us to make firm plans for a group tour up to two years in advance. Should the situation stabilize such that we can confidently blend it into our program without compromising on safety and convenience, this itinerary will be reviewed. One option is to extend your trip by a day and organize a day trip should conditions allow. We don't have an itinerary or pricing off-the-shelf, but our partners at destination may be able to advise/assist.
